

I am expressing my concern regarding the LPFM. I realize that the FCC places little value on Religious programming. K-Love in particular has provided a great service in my community. One point I would like to mention, is that K-love has made a real impact on the teenage population in my area. It empowers them to be the best that they can be in a fallen world. It teaches love and service to others. Values that only this radio station promotes. It gives the younger generation a sense of security and guidance. The message of hope and value is instilled in them. The beautiful music is uplifting to young and old alike. K-love motivates the listener to put trust in something so much greater (Our Lord Jesus) than anything in this troubled world. If K-love is pulled from the airwaves, my community will feel a real sense of loss in our lives. Teenagers in our community have suffered a great deal since the Columbine incident, as well as 9/11. Our world has been turned upside down. K-love has encouraged and supported our nation through these horrible incidents. If you take away K-love, you take away our daily encouragement and hope and MOSTLY OUR SENSE OF SECURITY. I plead that the proposed rule change be reconsidered. Thank you.
